
SCOPE OF SERVICES

For more than 100 years, St. Joseph Hospital Laboratory has provided compassionate, high-quality healthcare services to the greater Nashua community. Our goal is excellence in patient care through quality laboratory testing and a commitment to customer service.

St. Joseph Hospital Laboratory is licensed and accredited to provide accurate, timely, cost-effective, and integrated community laboratory testing for patients, physicians, and other professionals in the community and the region. Staffed 24 hours a day, seven days a week, St. Joseph Hospital Laboratory offers a full menu of testing including histology, microbiology, clinical chemistry, immunology, hematology, transfusion medicine, and consultative pathology. Our professional staff of board-certified Pathologists, Medical Laboratory Scientists and support personnel are highly trained and dedicated to putting the patient first and meeting your needs.
